**"Learn
Build
Test
Deploy"**

Why should you get Blockchain Certified?

- Blockchain development is the second-hottest skill in the job market today, growing more than 200% since this time last year.
- Blockchain developers globally are in high demand, with many on salaries amounting to as much as \$180,000 a year.
- The number of jobs in the blockchain industry that were advertised on LinkedIn soared in 2017, increasing from 1,037 in December 2016 to 4,541 in December 2017.
- According to the World Economic Forum, 10% of the world's GDP will be on Blockchain related technologies by 2025
